Sir:

SECOND PRELIMINARY AMENDMENT

Entry of this preliminary amendment is respectfully requested.

IN THE CLAIMS:

Amend claim 4 as follows:

1.(Previously Amended) A radio receiver system, comprising:

an RF tuner that receives a broadband signal and provides a received radio signal associated with a certain channel F_n , in response to a command signal;

a memory device;

an evaluation unit that receives said received radio signal and determines the signal strength of said received signal, and provides a signal strength value indicative thereof; and

a control unit that receives said signal strength value, reduces the value of said signal strength value based upon signal noise on a channel F_{n-1} to provide a corrected signal strength value, and
